Firenze
Logge Uffizi Corti

PROGRAM

The Workshop is a joint initiative to the conference that the Tuscany Region also organized in Florence on 26th and 27th November 2013 entitled "Marie Curie Actions: on the last lap to Horizon 2020".

Tuscany has taken this opportunity to bring to the attention of researchers two themes of great relevance for the Common Agricultural Policy and also agricultural policies of the Tuscan Region.

Research and innovation are crucial to rural development and sustainable competitive so that the first priority for the Rural Development 2014-2020 is innovation.

9.00 - Registration and welcome coffee
